

## ENRICH'N'SEAL

### DESCRIPTION/FEATURES:

- AQUA MIX ENRICH'N'SEAL is a no-sheen, penetrating sealer formulated to **darken, enrich** and **highlight** the character and beauty of unsealed, natural stone. It rejuvenates the color and improves the appearance of worn and weathered stone. May also be used as a pre-grouting sealer over clean stone surfaces a minimum of 2 hours prior to grouting. Allows moisture-vapor transmission. It also effectively darkens the color of grout joints.

### USES:

- Recommended for use on unsealed natural stone such as marble, granite, slate, limestone, travertine, quartzite and sandstone.
- Effective for interior and exterior applications.

### AVAILABLE SIZES:

- Enrich'N'Seal is available in pint (473 ml), quart (946 ml), gallon (3.785 L) and 5-gallon (19 L) pail sizes

### COVERAGE:

- Approximately 500 to 1500 sq. ft. (46 m<sup>2</sup> to 140 m<sup>2</sup>) per coat per gallon (3.875 L), depending on type of stone, porosity and texture of surface, temperature, humidity and method of application.

### EXPECTED WEAR:

- Will vary depending on hardness and texture of surface, type of area, surface wear, frequency and type of maintenance products used. The expected wear is **up to 15 years**. Exterior applications may require more frequent re-applications. Weather conditions, harsh cleaning methods and high-alkaline, acidic or solvent-based cleaners will affect wear.

### METHOD OF APPLICATION:

- **Read entire label before using**
- **TEST A SMALL AREA**, according to application instructions, with a 24-hour cure time to determine desired results. Test for water and stain repellency using likely contaminants. **Once enhanced, stone can not be restored to original appearance.**
- For new installations sealer can be applied 48 hours after grouting
- Surface must be clean, dry and free of existing sealers or coatings
- Apply 1 to 2 coats using white cotton towels, sponge, paint pad or brush and work enhancer into the surface
- Using absorbent white cotton towels, **WIPE COMPLETELY DRY** any sealer remaining on the surface within 5 minutes after application of each coat
- Surface must be dry to the touch and should not appear shiny
- Do not allow sealer to dry on surface
- Clean applicator tools with mineral spirits after use

### CURE TIME:

- Allow 30 minutes drying time between coats
- Ready for surface traffic in 12 hours
- Keep area dry for 12 hours
- Achieves a full cure in 48 hours

### MAINTENANCE:

- Aqua Mix Stone Cleaner is recommended for routine cleaning

### LIMITATIONS:

- **Do not allow sealer to come in contact with any non-recommended surface as product is not completely removable**
- Sealers and finishes should not be used before or after use of Enrich'N'Seal
- If Enrich'N'Seal is not **WIPE COMPLETELY DRY** within 5 minutes, a residue will form
- If residue occurs, call Aqua Mix Technical Assistance
- Keep floor surfaces dry and clean to reduce possibility of slip-fall accidents
- Routine pressure-washing will affect expected wear

### HANDLING AND STORAGE:

- Close container tightly after each use
- Store in original container only
- Store and use in temperatures between 40YF and 100YF (4YC and 38YC)
- Unused, stored product is freeze-thaw stable
- Dispose of residue or any unused leftover product in accordance with applicable federal, state and local regulations

### CAUTION:

- **KEEP OUT OF REACH OF CHILDREN**
- Combustible
- Use in well-ventilated areas
- Avoid prolonged skin contact
- Rubber gloves and eye protection should be worn during application.
- **IF INGESTED:** If person is conscious, immediately give 2 glasses of water and induce vomiting, seek medical attention
- **EYE CONTACT:** Flush with water. If irritation persists, seek medical attention
- **SKIN CONTACT:** Wash immediately with soap and water. If irritation persists, seek medical attention
- **INHALATION:** Relocate to fresh air. If symptoms persist, seek medical attention
